

Making the state:

November 24, 2009

Parse - break into

- components to test conformability to
a logical grammar;

So, unholy grammar let out against each other
using force to brighten, like the sunlight, what they say

these words are about those who
in their turn were left vulnerable to disease, want, and
unattended old age
was in them and left -welcome -
this age,
(the something new)

This is how we found the pieces on the floor
I know no one who knew what was being bargained for
leave them to the floor, let's go
let be
they were broken before we got here
-(have not we the strength to put them together;
as they are they lay broken?)
the pieces only signify what was the bargain and it was
made and have not we the strength to move against it?
the bargain and fate of the world.

The bargain was made but the players are not there and
in turn the game could be newly played .

you and I have but to find a few more players and sit down
in their chairs
so to we can begin to revision this nightmare
