

# Love, how fair you say it but:

May 13, 2010

What is meant to be shall be,  
so be careful for that you play some part in it-

For what part you play in it  
we, that is you and I shall see  
we shall see which are dreams  
and which are possibilities:  
remember what will be shall be forever-  
how you make it out to be  
-be and go-  
your way shall be as it was before you  
lay it down, what is in the past now  
play with your ideas and words  
arrange them how you desire them to go to the last  
measure  
to the final measure  
by no more a measure than the means before  
and that - that you can remember  
and all that is en-caption  
and all that atmosphere suspended  
over and about the lake and mountain ran the shore-

by more brilliant light we make them  
outlines and cast about your dreams are mind  
possibilities remember that never before

I saw you  
and you did dispose me to smile  
more than I needed to but not enough  
for when you were gone  
only I remember  
for you did not cause it in me the longing to know (you)

ark seconds pass, go by, fall, minute by minute
